## CERTIFICATE

### ON METROLOGICAL, TECHNICAL AND PERSONAL COMPETENCE TO VERIFICATION OF LEGALLY CONTROLLED MEASURING INSTRUMENTS

**No. 0319-OS-A 004-22**

On basis of the examination of the metrological, technical and personal competence to verification of legally controlled measuring instruments being carried out in accordance with § 16 of Act No. 505/1990 Coll., on metrology, as amended, and metrological regulation of the Czech Metrology Institute MP 002,

**Czech Metrology Institute  
herewith certifies**

competence of the legal subject: **TECHNOSKLO s.r.o., ID 46709347**  
Registered place of business: **Držkov 135, PC 468 24**

to carry out verification of legally controlled measuring instruments for the following measuring instrument:

- **Volumetric measuring instruments, part:**
  - Burettes and pipettes used for capacity inspection

A detailed specification of types, measuring ranges and accuracy of the measuring instruments in question, specification of measurement standards and of other measuring instruments and equipment, of measurement methods and of employees designated to carry out the verification are given in the summary report which is annexed to this certificate. Guidelines for using the certificate on metrological, technical and personal competence are an integral part of this certificate.

This certificate has been issued as a demonstration of technical competence (document) for purposes of authorization to verification of legally controlled measuring instruments according to Act No. 505/1990 Coll., on metrology, as amended.

Validity of this certificate expires on: May 23, 2027  
Date of issue: March 10, 2023

František Staněk, PhD.  
Director for legal metrology
